

an extension of your kitchen...

a workshop for your tools...

a shelter for your gear...

a shed for your pots...

a part of your home...

with plenty of space left for the car.

Garage

A garage organization system from ORG lets you sort tools, stash gear, stack pots, hang hats, and store shoes—and still have room for the car.

Organize every nut, bolt and wrench with high-performance precision. Rugged ORGwall transforms blank walls into sturdy storage for keeping tools within easy reach. Weatherproof, waterproof and easy to clean, ORG offers a full selection of adjustable racks, brackets, hooks, bins and baskets that snap and lock into place. Roomy cabinets hide cans and spare parts. Heavy-duty legs adjust to uneven floors, raising your belongings to a safe, dry level.

Ease the chaos of transitions with locker storage for backpacks, shoes and boots. Designed with low drawers for kids, high shelves for parents... hooks for coats and backpacks in between. Built-in bench makes it easy to shed shoes and boots; wire shelves let them dry.

Tame the tangle of bats, balls and clubs with a sports center of your very own. Durable ORG hardware secures bulky gear on the wall, in baskets and keeps everything off the floor. (No more runaway balls under the car.)

Garage

Start seeds, pot flowers and stow tools at your lawn and garden bench. Cabinets with sturdy, wood drawers on quality slides stow gloves and supplies. High shelves keep dangerous chemicals and sharp tools out of sight—kid-and-pet safe. Heavy-duty shelf liners retain moisture from rain and snow, allow air to circulate, and wash with a snap.

(Cover) Clear the clutter of bottles, cans and cleaning supplies with a back-door pantry. Open shelves provide easy access to frequently used bulk items; baskets keep recyclables under control.

ORG offers a complete line of home organization solutions for closets, pantries, basements, laundry rooms, garages, home offices and more. Fully trained and authorized ORG dealers provide design services, organization advice and professional installation. Visit www.homeorg.com for more information.
